Career Objective

Motivated and detail-oriented Flutter Developer with knowledge of Dart, Flutter, and mobileapplication development. Seeking an opportunity to contribute to innovative projects whileenhancing my technical skills and building high-quality cross-platform applications

Technical Skills

Core Technologies : Flutter, Dart, Object-Oriented Programming (OOP), Clean Code Principles

Backend Integration : RESTful API Integration, JSON Parsing, HTTP ,Authentication & Authorization (JWT), Firebase Integration

State Management : Provider

Firebase Services : Firebase Authentication, Cloud Firestore, Firebase Storage, Firebase Cloud Messaging (Push Notification)

Local Database : SQLite, Shared Preferences

Tools & Version Control : Git, GitHub, VS Code, Android Studio, Postman

UI/UX Development : Material Design, Custom Widgets, Responsive UI Design, Figma to Flutter Conversion

Projects

Tracklac(Integration Api With Responsive UI)

[GitHub](#)

A taxi fleet management and expense tracking application designed for drivers and vehicle owners. Tracks daily earnings, fuel consumption, mileage, operating costs, and profit/loss records in one place.Provides detailed insights and reports to help optimize expenses and improve business performance.

Todo(Integration Api With Responsive UI)

[GitHub](#)

A task management application built with Flutter using Firebase, REST API integration, and Provider state management. Enables users to create, update, and organize tasks with real-time data synchronization and a responsive user experience.
