Career Objective

Motivated and detail-oriented Flutter Developer with knowledge of Dart, Flutter, and mobileapplication development. Seeking an opportunity to contribute to innovative projects whileenhancing my technical skills and building high-quality cross-platform applications

Technical Skills

Core Technologies : Flutter, Dart, Object-Oriented Programming (OOP), Clean Code Principles

Backend Integration : RESTful API Integration, JSON Parsing, HTTP ,Authentication & Authorization (JWT), Firebase Integration

State Management : Provider

Firebase Services : Firebase Authentication, Cloud Firestore, Firebase Storage, Firebase Cloud Messaging (Push Notification)

Local Database : SQLite, Shared Preferences

Tools & Version Control : Git, GitHub, VS Code, Android Studio, Postman

UI/UX Development : Material Design, Custom Widgets, Responsive UI Design, Figma to Flutter Conversion

Projects

Tracklac(Integration Api With Responsive UI)

[GitHub](#)

A taxi fleet management and expense tracking application designed for drivers and vehicle owners. Tracks daily earnings, fuel consumption, mileage, operating costs, and profit/loss records in one place.Provides detailed insights and reports to help optimize expenses and improve business performance.

Photopia(SharedPref & Firebase &Rest_apiWith Responsive UI)

[GitHub](#)

Developed a dynamic mobile application using Flutter (Dart) that allows users to hire photographers and buy or sell photos. Implemented secure user authentication and integrated REST APIs for seamless data communication. Built and maintained core features including user management, photo uploads, booking, and marketplace functionality. Ensured efficient backend integration, data handling, and overall application performance. Focused on creating a responsive, scalable, and user-friendly mobile experience.

Education

B.Sc. in Computer Science and Engineering (CSE)

Northern University Bangladesh (NUB) | CSE | Present

Languages

Bangla – (Native), English – (Basic)
